1. Vehicle insured

1.1. Vehicle Insured

The vehicle described in the special conditions of the present contract.

Trailers or semitrailers, when specified in the special conditions.

The temporary replacement vehicle, i.e. the vehicle that replaces the vehicle described during the period it can not be used (this period can not exceed 30 days starting from the date that the vehicle described becomes unusable), providing that this vehicle is of the same type and the same function, and that it does not belong to the policyholder, the authorized driver or their family.

2. Value insured

2.1. Value insured

The value insured is specified by the policyholder under his own responsibility and is stated in the special conditions.

This includes:

1. The list price value of the vehicle described plus the values of the chosen options and accessories, the first time it was put into circulation. This value represents the base on which the premium is calculated.
2. The accessories that are not included in the given value, are insured up to € 495,78 on the basis of the price of the purchase invoice. Accessories exceeding this value can be insured providing that there is a prior notification to the Company. The Company is free to deny insurance for these accessories and can therefore ask for a premium increase.
3. The above-mentioned values must be given without taking discounts into consideration and excluding taxes.
4. Anti-theft systems recognized by the Company are covered without notification to the Company, for an amount equal to the purchase price, even when the placement of such a system is not required by the Company.
5. The value insured for trailers and semitrailers is equal to the purchase price excluding VAT.
6. The value insured for the temporary replacement car is limited to the value indicated for the vehicle in question.

3. Deductible

3.1. Deductible

The general conditions specify which part of the damage remains at the policyholder's expense, possibly after the application of the proportional rule.

4. Underinsurance

4.1. Underinsurance

There is underinsurance when the value insured is lower than the sum of the values described in point 2. In case of underinsurance, the proportional rule is applied. The indemnity owed by the company is decreased according to the ratio between the value insured and the sum of the previously mentioned values.

5. Obligations in case of damage

5.1. Obligations in case of damage

All damage must be reported by letter or fax as soon as possible after it has occurred, to the company, or to the person specified for that purpose in the General Conditions.

6. Estimate of the damage

6.1. Estimate of the damage

The damage is jointly assessed by the Company and the policyholder, or by their representatives. If the parties are not able to agree over the extent of the damage, they will jointly appoint a third party expert who will decide. This appointment must take place through the competent court of justice, at the request of either party.

Each party must support the expenses and fees of its own expert(s). Expenses and fees of the expert third party are supported by both party, each paying half.

7. Indemnification of the damage

7.1. Partial damage

1. There is partial damage when the damage to the insured car does not result in total loss, as defined below.
2. In case of partial loss, the amount of the indemnity equals the price of repair work, decreased by the deductible, increased by non-recoverable VAT. The non-recoverable VAT will only be paid after presentation of a repair invoice or an invoice for the purchase of a replacement vehicle.

7.2. Total loss

There is total loss

1. When the car is technically not repairable.
2. When the costs for repair, excluding VAT, are higher than the actual value of the vehicle insured, excluding VAT, after deducting the value of the wreck.
3. In case of theft, when the insured vehicle is not found within 30 days following notification to the Company.
4. The amount of the damage is established on the basis of either the estimated value or the actual value, as defined below, according to the formula described in the special conditions.
5. For trailers, semitrailers and accessories that are not included in

the established value, the amount of the damage is established on the basis of their actual value.

6. In case of total loss of accessories that are not included in the established value, a deductible of 1% per month since the date of purchase is applicable.

8. The actual value formula

8.1. The actual value formula

Is the value of the vehicle immediately before the damage, as established by experts.

9. Estimated value formula

9.1. Estimated value formula

This is the estimated value of the vehicle described, decreased monthly by 1 % deductible per month begun, as of the seventh month from the day the vehicle was put in circulation. When the estimate is lower than the actual value, the indemnification is based on the actual value. As of the 48th month following the date the vehicle was put into circulation, the indemnification is always based on the actual value.

10. General extensions

10.1. General extensions

The intervention of the Company is extended to:

1. The normal, proven and necessary towing expenses consecutive to an insured damage up to a maximum of € 495,78
2. Expenses related to disassembly for the estimate, expenses related to the temporary garaging until the expert's appraisal is completed, up to a maximum of € 495,78 providing that these costs are a direct consequence of an insured damage.
3. Expenses for the urgent and necessary temporary repair works performed in order to be able to use the vehicle, up to € 371,84 with no prior expert appraisal required, against presentation of a detailed repair invoice.

11. Duration of the contract

11.1. Duration of the contract

The renewal of this contract is dependent on the renewal of the master-policy underwritten abroad by the Headquarters. There is no tacit renewal clause.

12. Subrogation

12.1. Subrogation

The company which has paid the indemnity represents the rights of the policyholder or the beneficiary against liable third parties, for the amount of this indemnity. Except in case of malice, the Company has no recourse against close relatives, descendants and parents, against spouses or in-laws, co-habitants, house guests and domestic personnel.

13. Guarantees
